

12 members from 8 countries form the 5G-DiGITs Alliance consortium

- *Belgium, Germany, Greece, Ireland, Lithuania, Malta, Spain and Sweden are the countries which participate in 5G-DiGITs*

Brussels, 29/01/2025. The 5G-DiGITs Alliance project is composed of 12 members from 8 European countries: Belgium, Germany, Greece, Ireland, Lithuania, Malta, Spain and Sweden. The consortium brings together a diverse group of partners, including 3 higher education institutions (HEIs), 3 vocational education and training (VET) providers, and 6 industry representatives and business support organizations. The project is co-funded by the European Union through the Erasmus+ programme with a budget of 1,396,335€ and a duration of 36 months.

Greece has the highest representation in the consortium, 4 in total. Envolve Entrepreneurship (Project Leader), INFOLYSIS, National and Kapodistrian University of Athens (NKUA) and CNC Solutions they all are Greek partners. Spain follows with 2 members: Inercia Digital and Universidad Politécnica de Valencia (UPV).

The rest of the countries that participate in the project are represented by one member. Finnova Foundation from Belgium, Technische Universitaet Chemnitz from Germany, F6S IE from Ireland, Techin from Lithuania, Accelr8 from Malta and Kalrstats Univesitet (KAU) from Sweden.

How are the tasks divided?

The tasks of the 5G-DiGITs project are divided into six major areas, with each consortium member contributing their expertise:

- **Project Management & Coordination:** Envolve Entrepreneurship
- **Joint Curriculum Development:** UPV and NKUA
- **Entrepreneurship & Accelerator Programs:** Envolve, Techn, and Inercia Digital
- **Market Empowerment & Knowledge Exchange:** INFOLYSIS, UPV, NKUA, F6S, and Envolve
- **Communication & Dissemination:** Finnova Foundation

This collaborative and multidisciplinary approach will foster innovation and knowledge-sharing, ensuring the long-term success and impact of the 5G-DiGITs project.

About Finnova Foundation

Finnova is the Spanish Belgian non-profit foundation based in Brussels and Spain, working for the promotion and development of innovation and entrepreneurship in the EU. https://finnova.eu/en/home_eng/
