

# Great success at the first in-person consortium meeting of the 5G-DiGITs project held on February 18<sup>th</sup> and 19<sup>th</sup> in Athens

## 5G-DiGITs Consortium Meeting in Athens

Day 1

Tuesday, February 18th, 2025

- *Project partners gathered to coordinate strategies and establish the next steps in the implementation of 5G-DiGITs, a key initiative for Europe's digital transformation*

**Brussels. 20/02/2025.** The first in-person consortium meeting of the 5G-DiGITs project has concluded successfully. The twelve project partners met in Athens, Greece (GMT+2), on Tuesday 18<sup>th</sup> and Wednesday 19<sup>th</sup> of February at the headquarters of Envolv Entrepreneurship, the project's lead entity. Over these two days of intensive work, partners presented the progress of each work package and defined the next steps to ensure the project's effective implementation.

## 5G-DiGITs Consortium Meeting in Athens

### Day 2

Wednesday, February 19th, 2025

The meeting was crucial for strengthening collaboration among partners and establishing a coordinated framework to achieve the objectives of 5G-DiGITs. It provided an opportunity to exchange ideas, review progress, and align strategies to ensure the smooth development of each work package.

During the sessions, the consortium outlined the project's work schedule for the coming months and defined key milestones. Partners shared insights and suggestions to optimize the implementation of the project and enhance collaboration among participating entities. The communication and dissemination strategy was presented, focusing on promoting the project's progress across Europe, and the first **Brokerage Event** was confirmed to take place in **Dublin in May**, organized by F6S, bringing together key stakeholders in the 5G ecosystem.

The meeting began with the presentation of project management, coordination, and evaluation, led by Envolve. Throughout the first day, discussions focused on joint curriculum development and acceleration and entrepreneurship programs. The second day covered knowledge exchange and collaboration, the communication and dissemination strategy presented by Finnova, and continuous education programs outlined by Karlstads Universitet and Inercia Digital.

### About the 5G-DiGITs project

In addition to the lead entity [EnvolvE Entrepreneurship](#) (Greece), the 5G-DIGITs consortium brings together [INFOLYSIS](#), [National and Kapodistrian University of Athens](#), [CNC Solutions](#) (Greece), [Accelr8](#) (Malta), [F6S IE](#) (Ireland), [Finnova](#) (Belgium), [Inercia Digital](#) and Universitat Politècnica de València (Spain), [Karlstads Universitet](#) (Sweden), [TECHNISCHE UNIVERSITAET CHEMNITZ](#) (Germany) and [Techin](#) (Lithuania). 5G-DiGITs aims to position Europe as a leader in the development and application of 5G technology. Through collaboration between academic institutions, technology companies, and training organizations, the project seeks to bridge the digital skills gap and equip the workforce to meet the challenges of digital transformation.

The project runs for 36 months with a total budget of €1,745,421, funded by the European Commission through the Erasmus+ program.
