Brussels, 22/04/2025. On Earth Day, 5G-DiGITs reaffirms its commitment to digital transition aligned with climate change goals. At our next event in Dublin, we will encourage partnerships that promote sustainable and environmentally friendly technologies. The Brokerage Event will be a platform to connect not only innovative and digital ideas, but sustainable ideas as well, because innovation must also care for our common home: the Earth.

The registrations for the 1st 5G-DiGITs Brokerage Event are still open. The event will take place in Dublin, Ireland, the next 22nd of May in the Tcube Coworking. The meeting is going to start at 6:30pm and is planned to finish at 8:00pm. It is an opportunity to connect with peers in the Irish tech ecosystem and to boost synergies and shape the future of 5G in Europe.

The agenda for the event is as follows:

6:30pm - 6:35pm - Opening and presentation of 5G-DiGITs project.

6:35pm - 7:05pm - Roundtable discussion on investment opportunities and challenges for advanced technologies start-ups.

7:05pm - 7:25pm - Open discussion/visioning about the future of 5G in Europe based on

educational curricula and policy regulations.

7:25pm - 7:55pm - Networking session with participation of audience, divided into groups to foster multiple discussions and possibility for collaboration

7:55pm - 8:00pm - Closing remarks.

Any student, educator, tech industry professional, investor or passionate about 5G technologies may register for this event that is open to the public.

The registrations must be done in the following link: <https://bit.ly/42rWHqN>

About 5G-DiGITs

5G-DiGITs is a European project co-funded by the Erasmus+ program, running for 36 months (starting November 1, 2024) with a total budget of €1,745,421. Its mission is to train the next generation of 5G professionals, aligning education and training with labor market demands.

The consortium includes 12 key partners from the technology, education, and business sectors: Envolve Entrepreneurship, Polytechnic University of Valencia, National and Kapodistrian University of Athens, Infolysis, Karlstad University, Technical University of Crete, Inercia Digital, CNC, Finnova, A8, Techin, and F6S.

Together, we work to identify skill gaps, develop innovative educational programs, and strengthen collaboration between industry and academia.
